

Trusting your website with

# Sonder Maintenance

Watching your website while you focus on your business, our maintenance packages are made for businesses that need help handling their day-to-day upkeep of their website.

## Powerful and flexible website infrastructure

Hosting your website with Sonder grants you access to a dedicated server with media offloading, SFTP access, API support, and more!

## Man-operated maintenance

Our maintenance package includes monthly system updates and audits, tested and performed by humans before touching your site.

## Suite of tools included

Websites enrolled in Sonder's maintenance program are provided with a suite of pro plugins and WordPress tools for the duration of their enrollment.
